Microsoft Certification Training Catalog

Certification programs for Swiss companies

keyIT
Learning Hub

At keyIT, we support Swiss companies in enhancing their IT teams' skills through official Microsoft certification paths. This catalog outlines all available training programs, organized by level and specialization.

Our courses cover Microsoft 365, Azure, cybersecurity, data, and AI. Each session is led by certified instructors with substantial field experience.

Format: on-site (at your premises or in Vernier), distance learning or hybrid format
Language: French (English on request)

Preparation for official certifications is available as an option.
